***** COMPLIANCE CERTIFICATE *****

Financial Asset Services, Inc. [“FAS”] is a national Appraisal Management Company which is a fully licensed and insured independent third party AMC, strictly adhering to appraiser independence, non-influence and ethics standards and requirements.

It is further warranted that the above-referenced appraisal, and all internal FAS procedures adhere to the standards, practices and requirements set forth by the Consumer Financial Protection Bureau in regards to the Dodd-Frank Wall Street Reform and Consumer Protection Act. FAS abides by all standards and requirements mandated by the GSE's and non-federal conduits and/or depositories including but not limited to the Federal Housing Authority, the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation in regards to Appraiser Independence Requirements [“AIR”], non-influence and ethics. Additionally, FAS ensures that the appraisal report adheres to all STANDARDS mandated by the Uniform Standards of Professional Appraisal Practice, and the Financial Institutions Reform, Recovery and Enforcement Act of 1989:

- FAS employs onsite licensed appraisers who complete a technical review of each appraisal order prior to being released to our clients. The review is an analysis of the appraisal report and not an opinion of value.
- FAS completes a thorough review and approval process of each appraiser's license and insurance policy at time of engagement, as well as the annual renewal mark. Licensing notifications issued by the Appraisal Subcommittee and other state agencies are also reviewed.
- Appraiser selection is performed by utilizing a selection methodology based on the criteria of proximity to the subject property and system grading, including quality and performance.
- FAS provides our clients a secure operation system to receive and deliver the appraisal report and adheres to the Uniform Loan Delivery Dataset [“ULDD”] requirements.
- No estimate regarding the subject property's value or loan amount was communicated or provided by FAS to the appraiser. A purchase agreement is provided to the appraiser for purchase transactions, as required by USPAP Standards.
- All appraisals are arms length transactions and procured in the manner defined in the aforementioned appraiser independence laws referenced in USPAP, Dodd-Frank Act and other State Acts.
